

8 NORTH CENTER FOR THE ARTS

capital campaign

FAQs

What makes this building special?

THE RICH HISTORY and central location of this building make it uniquely positioned to become the creative hub of our community. For young people, it is a walkable space for after-school programs. For residents of all ages, it is a convenient destination to see a show or take a class with a master artist. For everyone who visits, it is an accessible and irreplaceable landmark location to come together and connect.

Who will use this building?

IN A WORD, EVERYONE! A much-needed elevator and wider doorways will ensure that every space is accessible to all. New programming will focus on family-friendly and community building activities, like art shows for local artists and theatre classes for young people. A renovated catering kitchen will make the building ideal to host meetings, gatherings, and performances.

Is success sustainable?

WITH EXCELLENT SCHOOLS, an engaged community, and a vibrant culture, Fort Thomas is consistently rated one of the top places in Kentucky and in the region to live. Our community values the arts. Our residents consistently seek learning and cultural opportunities for themselves and their families. An expanded scope of programming made possible by these renovations—additional ticketed performances and events, free programming funded by grants and gifts, and revenue generated from newly available rental spaces— ensures that the 8 NORTH CENTER FOR THE ARTS is well positioned for long-term success.
